

Inspired Mission. Innovative Solutions.

We design, create, modernize, integrate, and secure mission critical systems and business applications for government organizations to improve the health, security, and well-being of all Americans.

Our Solutions

We rely on our Agile Delivery Framework to rapidly deliver solutions specifically tailored to customer needs.

Digital Services
that deliver intuitive,
efficient enterprise systems

Data Analytics
that drive insightful,
impactful decisions

Cyber Security
that provides intel-
driven risk reduction

Cloud Solutions
that secure scalable,
reliable infrastructure

Business Information

- Founded in 2006; Headquartered in Arlington, VA with an Agile Delivery Center in Clearwater, FL
- DUNS Number: 557581779 / CAGE Code: 41QW7
- D&B Credit Rating: 4A1 (with lines of credit)

- Service-Disabled Veteran-Owned, Woman-Owned Small Business
- CMMI DEV Maturity Level 3, ISO 27001, & ISO 9001
- Top Secret Facilities Clearance

Prime Contract Vehicles

- ITES-3S
- DOJ ITSS-5
- VA T4NG
- CMS SPARC
- 8(a) STARS II
- VETS 2
- CIO-SP3 SDVOSB
- CIO-SP3 8(a)
- GSA IT 70
- GSA IT 70 Health IT SIN
- GSA PSS
- Seaport Next Generation

Solutions & Capabilities

Digital Services

We offer a suite of playbooks, automation tools, and methodologies through our Agile Delivery Center to drive rapid development of custom applications. Our team of certified SMEs combine design thinking with robust engineering and cyber practices to collaborate with stakeholders and end users as a unified team, delivering intuitive, secure, scalable applications that improve user experience and adoption.

- Human Centered Design (HCD)
- User Experience / Customer Experience (UX/CX)
- Software Engineering
- DevSecOps
- Continuous Deployment
- Process & Quality Automation
- Security

Data Analytics

We offer a comprehensive suite of data services designed to enhance interoperability and promote evidence-based decision-making. We leverage machine learning and predictive analytics to enable our customers to use their data to identify preventive business interventions that reduce overall risk and improve mission effectiveness.

- Data Architecture
- Integration & Interoperability
- Master Data Management
- Data Science
- Business Intelligence (BI)
- Data Visualization
- Machine Learning & AI
- Internet of Things (IoT)

Cyber Security

We help our customers defend their data, networks, and information systems from cyber threats, as well as ensure compliance with Federal Information Security Modernization Act (FISMA) standards. Our cyber experts work to understand, prioritize, and manage cyber security in the context of our customers' business and mission goals to address the issues of today and prepare for the challenges of tomorrow.

- Continuous Diagnostics & Mitigation (CDM)
- Threat Modeling & Prevention
- Incident Response
- Threat Intelligence
- SOC Operations

Cloud Solutions

Our expertise in Cloud and virtualization technologies, information assurance and security, and federal policies and standards offers our clients a customized approach for architecting best-fit infrastructure solutions for scalability and cost optimization to successfully migrate to and operate in the Cloud.

- Strategy & Architecture
- Hybrid & Multi-Cloud Solutions
- Migration
- Cost & Performance Optimization
- Governance & Operations
- Security
- Automation & Orchestration
- SaaS, PaaS, & IaS
